

# The Vision

## Fairport Convention

I heard a voice calling out to me  
It might have been a vision, might have been a dream  
But some things will come and some will go  
We're only here a moment, don't you know?

And I don't think that I've all the answers  
But I've got my share of questions  
If I don't follow blindly  
It doesn't mean I've lost my way  
Because I'm still on a journey  
Heading down a road less travelled  
I think we're all going to get there  
In our own time and way  
Time and way

There's a bridge that leads us to the other side  
You will know you've crossed it when you arrive  
And everyone will have such a tale to tell  
I'm going to quench my thirst when I drink from that well

And I don't think that I've all the answers  
But I've got my share of questions  
If I don't follow blindly  
It doesn't mean I've lost my way  
Because I'm still on a journey  
Heading down a road less travelled  
I think we're all going to get there  
In our own time and way...

I heard a voice calling out to me  
It might have been a vision, might have been a dream  
But some things will come and some will go  
We're only here a moment, don't you know?

And I don't think that I've all the answers  
But I've got my share of questions  
If I don't follow blindly  
It doesn't mean I've lost my way  
Because I'm still on a journey  
Heading down a road less travelled  
I think we're all going to get there  
In our own time and way  
I think we're all going to get there  
In our own time and way  
Our time and way...

I heard a voice calling out to me
