If My Heart Had Wings

Damn these old wheels Rolling too slow I stare down this white line With so far to go Headlights keep coming Loneliness humming along Who poured this rain Who made these clouds I stare through this windshield Thinking out loud Time keeps on crawling Love keeps on calling me home I'd jump all these mountains and take to the skies Sail through the heavens with stars in my eyes

If my heart had wings I would fly to you and lie Beside you as you dream If my heart had wings

We both committed We both agreed You do what you have to to get what you need Feeling you near me with so many miles in between Lord, it ain't easy out here in the dark To keep us together so far apart

If my heart had wings I would fly to you and lie Beside you as you dream If my heart had wings

Stuck on this circle Spinning around Cut loose from this rope That's tying me down

If my heart had wings I would fly to you and lie Beside you as you dream If my If my heart had wings I would fly to you and lie Beside you as you dream If my heart had wings Faith Hill
