

It Matters To Me

Faith Hill

1. Baby tell me where'd you ever learn
To fight without sayin' a word
And waltz back into my life
Like it's all gonna to be alright
Don't you know how much it hurts.

R: When we don't talk
When we don't touch
When it doesn't feel like we're even in love
It matters to me
And I don't know what to say
Don't know what to do
Don't know if it really even matters to you
How can I make you see
It matters to me.

2. Baby I still don't understand
The distance between a woman and a man
So tell me how far it is
And how you can love like this
Cause I'm not sure I can

R: When we don't talk...

*: Oh and I don't know what to say
Don't know what to do
Don't know if it really even matters to you
How can I make you see
Oh it matters to me.
Oh it matters to me.
It matters to me.
