Faith No More

Has it been so long? Do you think we know? Do you think we care? Die...for the here and now Do you remember why? Do you remember how? Face out Stick your chest out Stomach in Thats right Do you really know Where the harems go In the desert snow? Hail, An oasis dream doesn't really seem To mean a thing when you're out cold So, hands up Put your guards up Feet down Up down Forward march Left right Cold cold I feel cold
