Faith No More

Got that feeling Luck is just a little of it Got that feeling I can't stop winning A to Z Look what you're missing, as we speak Your number's rising, take a peak There's just enough to go around, get a piece Your own little piece of hell Got that feeling Loving every minute of it Got that feeling I can't stop winning Have a drink A pot of coffee, cannot think Too many friends here, just an inch Between striking out and striking rich, just a risk One I'll take and take again... Got that feeling Gotta bet a little of it Got that feeling I can't stop winning.. And start living You can't borrow tomorrow
