The World Is Yours

Faith No More

```
Keep your distance
You're in the race (?)
Caress me
In your eye I've got better things to do This will hurt
someone White walls, windows
Charity(?)
Defenders(?)
Comfort me and bring me something sharp This will hurt
someone – someone else
This will hurt someone else Calm down, Think Carefully
Seen it all before
Mind your own fucking business
Seen it all before
What I would give for your eyes
Seen it all before
You'd never blink again
Seen it all before Faces on top of more faces
This bullet in your chest, the world is yours
Each word, you suck it through a straw
It's so predictable, it's policy This will hurt someone –
someone else
```
