Fall Out Boy

She's an American beauty  
I'm an American psycho  
She's an American beauty  
I'm an American  
I'm an American  
American Psycho  
(Woah Woah Woah)

I'm an American  
I'm an American  
I'm, I'm, I'm an American psycho

I think I fell in love again  
Maybe I just took too much cough medicine  
I'm the best worst thing that hasn't happened to you yet  
The best worst thing (Woah)  
You take the full, full truth, then you pour some out  
You take the full, full truth, then you pour some out  
And you can kill me, kill me or let God sort 'em out  
And you can kill me, kill me or (Woah)

(Woah Woah Woah)

She's an American beauty  
I'm an American psycho  
She's an American beauty  
I'm an American  
I'm an American  
I'm, I'm, I'm an American psycho

I wish I dreamt in the shape of your mouth  
But it's your thread count I really care about  
Stay up 'til the lights go out  
Stay up, Stay up  
You take the full, full truth, then you pour some out  
You take the full, full truth, then you pour some out  
And as we're drifting off to sleep  
All those dirty thoughts of me  
They were never yours to keep, keep (Woah)

Altered boys, altered boys  
We're the things that love destroyed  
(I'm an American, I'm an American)  
You, me, us, them  
We're just resurrection men  
(I'm an American, I'm an American)  
Us, we were only there to make you live again  
(I'm an American, I'm an American)  
Us, we were pity sex, nothing more and nothing less  
(I'm an American)

She's an American beauty  
I'm an American psycho  
She's an American beauty  
I'm an American  
I'm an American  
American Psycho
