

# Love, Sex, Death

## Fall Out Boy

(Here we go again)

Welcome to the demolition derby that is my heart  
I'm only here to crash a life, it was never alright from the start  
Sometimes I feel like the whole world is after me  
I'm just the best lookin' pony in the glue factory  
But out of every pretty pretty miscalculation  
You have got to be my all-time favorite  
Love, sex, death  
Till there's nothing left  
Love, sex, death  
Till there's nothing left  
Nothing left

But out of every pretty pretty miscalculation  
You have got to be my all-time favorite  
Love, sex, death  
Till there's nothing left  
Love, sex, death  
Till there's no-no-no-no-no-no-no-nothing left
