

No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me

I can't believe no one started yelling at me yet
I can't believe no one started yelling at me yet

No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me

Sometimes you make me lie awake at night it doesn't work
Sometimes you make me wanna run away but I don't go
So I close my eyes and picture if I can flip my pillow
Dream a dream and put the stars back in the sky

Whaaaaooo Whoaaaaooo

No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me

O yeahhhhhh yeahh

No one is ever gonna take anything from me again
No one is ever gonna take anything from me again
No one is ever gonna take anything from me again
No one is ever gonna take anything from me again

Sometimes you make me lie awake at night it doesn't work
Sometimes you make me wanna run away but I don't go
So I close my eyes and picture if I can flip my pillow
Dream a dream and put the stars back in the sky

Whaaaaaooohh
Whaaaaaooohh

No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me

O yeahhhhhh yeahh

I can't believe no one started yelling at me yet
I can't believe no one started yelling at me yet
I can't believe no one started yelling at me yet
