

# A Flood

Fanfarlo

Let it come to pieces  
Let it die, let it fall  
A flood will come here anyway

Just put off decisions if you must  
As the lamps  
flicker back to life again

Come another century full of dust  
Don't explain,  
just call me when you're off the plane

Come December don't be cruel  
Come a senseless train of thought  
Come the weekend we'll get lost  
Just in time to get caught in the rain

So hold out your raincoat  
Let it fall and let it die  
A flood will come here anyway

Come December don't be cruel  
Come a senseless train of thought  
Come the weekend we'll get lost  
Just in time to get caught in the rain

How the houses start to lean  
So precariously  
When the pavements start to crack  
As minutes fall to the floor  
If we spend it all at once we've won

Come December don't be cruel  
Come a senseless train of thought  
Come the weekend we'll get lost  
Just in time to get caught in the rain

So hold out your raincoat  
Let it fall, let it die  
A flood will come here anyway
