

## Fire Escape

Fanfarlo

On the fire escape  
We stopped and we looked down  
Through the broken glass, on the sirens on the spies  
When you're still midway  
It's not too late to just turn back

The winter is cruel round here  
The future is not down there  
"Why can't they just think like us?"  
"Why can't they just think like us?"  
"Why can't they just think like us?"

If you've got flags to wear  
You should be careful what you sell  
On the fire escape  
I think I slipped, I think I fell  
But you're still midway  
It's not too late to just turn back  
It's not too late to just turn back

The winter is cruel round here  
The future is not down there  
"Why can't they just think like us?"  
"Why can't they just think like us?"  
"Why can't they just think like us?"

We were raised by strangers  
The life that you had in mind  
Was just a moth and a light  
Was just a moth and a light  
Was just a moth and a light
