

# Be Alright

Fantasia

What's wrong with me and what's happening to us'  
Tell me am I being replaced, because I fell things are not the same'

Like they use to be, when we use to be in love  
And now you wanna stay out all night  
Coming home at the break of daylight

Hook

(Who is she) who's taking my place'  
(Who is she), you can't even look at my face  
(Who is she), she's stealing your heart and tearing my whole world apart

I've been with you for so long and now you wanna leave me  
I've always been your backbone and now you wanna hurt me  
This time I gotta move on, it's time to say goodbye  
This time I'm going to be strong, and I'm going to be alright

I know in time that this pain is going to end  
But I can't forget about our past and how I tried so hard to make it last  
Ooh but until then, my faith just has to be strong  
Because my love for you has died and now it's time for my heart to move on

(Who is she) who's taking my place'  
(Who is she), you can't even look at my face  
(Who is she), she's stealing your heart and tearing my whole world apart

I've been with you for so long and now you wanna leave me  
I've always been your backbone and now you wanna hurt me  
This time I gotta move on, it's time to say goodbye  
This time I'm going to be strong, and I'm going to be alright
