

Bittersweet

Fantasia

Ohh.. Oh oh every now and then I still get a flashback about the time I spent thinking u could be that one
oh said I have just captured love ooh yes I understand we done
had some good times on the other hand kept me crying out my eyes oh was too much for my mind

so even though I left u I can't forget u cuz when I think about u its bittersweet its bittersweet
yes I'll always love u its bittersweet its bittersweet
when we were together u ain't treat me right and I really love ya I ain't gonna lie
cause when I think about u its bittersweet
must so even though I left u I can't forget u cuz when I think about u its bittersweet its bittersweet
yes I'll always love u its bittersweet its bittersweet
when we were together u ain't treat me right
damn I really love ya I ain't gonna lie cause when I think about u its bittersweet
still of things u gave me
started to throw it out but something always stops me yeah
I'm not as over u as I say ooh
deep inside my heart I made the right decision
but its kind of hard when your mind is thinking of
did I make a big mistake
see I have to understand that somebody's gonna get hurt out the situation
and u just hope its not u at times
part of me wants u part of me don't
part of me is missin u part of me is gone
part of me is saying that the love is still strong
part of me is letting go
so even though I left u I can't forget u cuz
when I think about u its bittersweet its bittersweet
yes I'll always love u ooh its bittersweet its bittersweet
when we were together u ain't treat me right
damn I really love ya I ain't gonna lie cause
when I think about u its bittersweet
