

Crazy

Fantasia

I got it, they want it, but really what's new?
I'm young, and i'm black, and i'm missing a screw.
They will never catch us, misfits on the run
They do not not exspect us out, lost, having fun.
I got it, they want it, but really what's new?
I do what I like, I got nothing to prove.
They will never catch us, partners on the low
They do not exspect us, not until we blow.

I don't believe in school, but I only have one rule
If you're down with me you gotta be.you gotta be crazy.To be in
love with me, you gotta be crazy.You're the one I see

I know you might have heard some phrase like " Up assist the tr
ack," but if you really want to know what starts my cardiac
You gotta be crazy.To be in love with me, you gotta be crazy.Ju

I got it, they want it, they watching my moves
I'm playing a game, I got nothing to lose
They will never catch us writing on the lines
They do not exspect us, can't you see the time?
I got it, they want it, they watching my moves
If I am a riddle, they can't get a clue
They will never catch us, we'll never confess
They do not exspect us weirder than the rest

I don't believe in school, but I only have one rule
So if you're down with me you gotta be.you gotta be crazy.To be
in love with me, you gotta be crazy.You're the one I see

I know you might have heard some phrase like "Up assist the tra
ck," but if you really want to know what starts my cardiac
You gotta be crazy.To be in love with me, you gotta be crazy.Ju

Lets just pretend we didn't, and do it anyway
I want to live how I live, let them say what they say
Just let it go for a little while, cause the rules are so outta
style.Yeah?

I got it, they want it, but really what's new?
I do what I like, I got nothing to prove
They will never catch us, partners on the low
They do not exspect us, not until we blow
