

So Much To Prove

Fantasia

Say I'm the one you care for,
Claiming I'm the first you ring in the morning and the last at
night.
Say we will be forever,
Don't mean to let you down boy but it's gonna take more than th
at.

It's a little more begging and a little more pleading
If you won't disturbing, imma need a hundred more reasons.
So before I just let go, show me why you're so special
And why you should be the one?

Now baby I want you
But I can't give in too sure
So much to prove ya, why you got so much to prove ya
When you got so much to prove ya
Well you got so much to prove, so much to prove.

I do the thing I don't care,
But I'd be such a fool to play fair, in the game of love
I gotta say myself, stop!
So even if you got two steps ahead, you're still behind
You gotta wait for ?

It's a little more begging and a little more pleading
If you won't disturbing, Imma need a hundred more reasons.
So before I just let go, show me why you're so special
And why you should be the one?

Now baby I want you
But I can't give in too sure
So much to prove ya, why you got so much to prove ya
When you got so much to prove ya
Well you got so much to prove, so much to prove.

Now baby I want you
But I can't give in too sure
So much to prove ya, why you got so much to prove ya
When you got so much to prove ya
Well you got so much to prove, so much to prove.

You know you got so much to prove baby
So much to prove baby
