

# Demons

Fatboy Slim

They said she had a heart attack  
I think the creatures coming back  
And I am fine, coz all my love's electrifying  
And I come feel like assessable  
Wanna be with you  
And it's my premonition  
I better give my heart a listen  
And my preacher say

All of your demons will wither away  
Ecstasy comes and they cannot stay  
You'll understand when you come my way  
Coz all of my demons have withered away

All of your demons will wither away  
Ecstasy comes and they cannot stay  
You'll understand when you come my way  
Coz all of my demons have withered away  
All of my demons have withered away

He said he shook himself to death  
I wanna dance to my last breath  
... only party's hard and ...  
Come feel like assessable  
Wanna be with you, wanna be with you  
And it's my premonition  
I better give my heart a listen  
And my preacher say

All of your demons will wither away  
Ecstasy comes and they cannot stay  
You'll understand when you come my way  
Coz all of my demons have withered away

All of your demons will wither away  
Ecstasy comes and they cannot stay  
You'll understand when you come my way  
Coz all of my demons have withered away

All of your demons wither away  
Demons wither away  
All of your demons wither away  
You'll understand when you come my way  
All of your demons wither away  
When you come my way, when you come my way  
All of your demons wither away  
Oh no no, they wanna get me down, yeah they wanna get me down  
All of your demons wither away  
I better give my heart a listen  
Ecstasy comes and they cannot stay  
I better give my heart a listen  
I better give my heart a listen  
I better give my heart a listen  
Come my preacher say all of my d-e-yeah-hey ....

All of your demons will wither away  
Ecstasy comes and they cannot stay

You'll understand when you come my way  
Coz all of my demons have withered away ....

Yeah-hey - yeah-hey - yeah-hey  
All of my - yeah ....  
Ecstasy - oh
