

Down to the River

Feeder

Let's go down to the river
We can sing those lullabies
We'll go back to consider
The meaning of our ever-changing lives

'Cause we know
Solace will be waiting
As we're tripped off the edge
We've climbed every mountain
We've crossed every bridge
Just to go back to
Where the other side lives

There's no sound like a river
We sit and watch it passing bye
We'll take time to deliver
Emotions that still bleed inside

'Cause we know
Solace will be waiting
As we're tripped off the edge
We've climbed every mountain
We've crossed every bridge
Just to go back to
Where the other side lives

Going back, going back...
Going back, going back...
Back to the river
