

## Guided By a Voice

Feeder

I don't wanna get drunk  
Forget about the memories  
I just wanna heal that  
Aching inside

I just can't be lonely  
Guided by a voice  
I just won't be broken  
Knowing that I have a choice

Maybe it's time to make you  
Feel that you still belong  
Maybe it's time to set things free

It's our time, so think about it  
I know you wanted to  
It's our time, so think about it  
Can't live without it  
I dream about us now

Sentimental values  
Water under the bridge  
Voices of a nation  
Echo in my head

I just can't be lonely  
Guided by a voice  
I just won't be broken  
Knowing that I have a choice

Maybe it's time to make you  
Feel that you still belong  
Maybe it's time to set things free

It's our time, so think about it  
I know you wanted to  
It's our time, so think about it  
Can't live without it  
I dream about us now

Just can't wait  
Can't keep this silent  
I just can't wait  
Can't keep this silent

I just can't be lonely  
Guided by a voice  
I just won't be broken

It's our time, so think about it  
I know you wanted to  
It's our time, so think about it  
Can't live without it  
I dream about us now  
I dream about us now

I just can't wait

Can't keep this silent
