Guided By a Voice

Feeder

I don't wanna get drunk
Forget about the memories
I just wanna heal that
Aching inside

I just can't be lonely
Guided by a voice
I just won't be broken
Knowing that I have a choice

Maybe it's time to make you Feel that you still belong Maybe it's time to set things free

It's our time, so think about it
I know you wanted to
It's our time, so think about it
Can't live without it
I dream about us now

Sentimental values Water under the bridge Voices of a nation Echo in my head

I just can't be lonely
Guided by a voice
I just won't be broken
Knowing that I have a choice

Maybe it's time to make you Feel that you still belong Maybe it's time to set things free

It's our time, so think about it I know you wanted to It's our time, so think about it Can't live without it I dream about us now

Just can't wait
Can't keep this silent
I just can't wait
Can't keep this silent

I just can't be lonely Guided by a voice I just won't be broken

It's our time, so think about it
I know you wanted to
It's our time, so think about it
Can't live without it
I dream about us now
I dream about us now

I just can't wait
