

Here In The Bubble

Feeder

Keep my feet on the sand
Gotta take the hand that guides me there
As I reach, do they stare?
Do they feel the same way?

I wanna be here!
I wanna be here, I see the face
Look back and then it calls to me
Wanna stay here, here
Just wanna be free
(Wanna be free)

Could it be in my head?
As I kneel, as I turn to face, cover me
If it falls high above
It takes us all away someday

I wanna be here!
I wanna be here, I see the face
Look back and then it calls to me
Just Wanna stay here, here
Just wanna be free

Will I feel it anymore?
As a child, as I grow old
It's the only way I see
Open up, let it be

I wanna be here!
You don't know, cause you don't see it
I wanna be here, I see the face
Look back and then it calls to me
I feel it, so let it go

Let it go
Wanna be here
I wanna be here
