

Gone too fast  
Like the sun, like the morning  
Seasons change like a face getting old

Times, good times  
On the waves of devotion  
Rising up, then it starts to fall

Who'd have thought  
You'd be the one to get tired  
Tired of living, tired of life

Don't give up, you have us  
We'll find a way  
Don't give up, don't give up

Falling fast  
As a new day's dawning  
Holding back, as it cuts you deep

Who'd have thought  
You'd be the one to get tired  
You're tired of living, tired of life

Don't give up, you have us  
We'll find a way  
Don't give up, don't give up

Been trying for days, lost in a maze  
Drifting the ocean, fighting the waves  
It's never been easy  
It's always been hard to find a way

Home at last  
It's the place that you long for  
You're tired of living, tired of life

Don't give up, you have us  
We'll find a way  
Don't give up, don't give up  
Don't give up, don't give up

Don't give up, you have us  
Don't give up  
We'll find a way  
Don't give up, don't give up  
Don't give up
