There's an anthem ringing out You can hear it clear and loud Coming from the hearts of men Echoing the Great I Am

And it goes on and on and on and never fades away On and on and on and so we join today

We sing alleluia Praise Your name and glorify We sing alleluia Lift our voices to the sky

There's a song that never dies
It lives within the heart that cries
Out for mercy on the streets
It's a cry of love and harmony

And it goes on and on and on and never fades away On and on and on and so we join today

Men have praised You
Through the ages
Followers who have gone before us
So we stand before You
And we lift our voices
All together we join the chorus
