

Well Pleased

FFH

You are the child that I love in you I am well pleased
You are the child that I love in you I am well pleased
Nothing high, nothing low could separate you from me
You are the child that I love in you I am well pleased
You've got nothing to prove
In you I am well pleased

And when you walk through the dark
I'll be a light unto your feet
And when you cry in the night
I'll be the comfort that you seek
Long before you spoke a word
Or your face was ever seen
Your every breath, your every move
Was ever visible, ever visible to me

When you need me I'm already there
I hear your every prayer
And every step you take I take with you
And every move you make I make it to

And when you walk through the dark
I'll be a light unto your feet
And when you cry in the night
I'll be the comfort that you seek
Long before you spoke a word
Or your face was ever seen
Your every breath, your every move
Was ever visible, ever visible to me
