

Love Is All We Got

Fireside

These are the times you just want to hop a train
But I already did left nothing for nothing

Picked up beautiful stones
You said it was nothing but sand
And sand poured through my fingers
Left a mess on the floor

Tell me I don't love you and I'll believe you
Give me nothing ever and I'll trust you
I'll tell all my secrets to anyone who will hurt me good
Who will hurt me good

Burn yourself up
Set yourself on fire, she said
It will keep you warm
Until the last minute

Love will always tear us apart
