

## Boston Tea Party

Fish

Are you going to the party?  
Are you going to the Boston tea party?

Redcoats in the village  
There's fighting in the streets  
The indians and the mountain men, well  
They are talking when they meet  
The king has said he's gonna put a tax on tea  
And that's the reason you all americans drink coffee

Are you going to the party?  
Are you going to the Boston tea party?

Fire in the mountains, flames upon the heath  
And the president spits out the news  
He's biting on wooden teeth  
The children of the colonies  
Got a different tale to tell  
I'm going down to the city  
Tell my folks I'm doing well

Are you going to the party?  
Are you going to the Boston tea party?

Bringing back the buffalo to the long prairie  
Bringing back the fishes swimming in the sea  
The children of the colonies  
Got a different tale to tell  
I'm going down to the city  
Tell my folks I'm doing well

Are you going to the party?  
Are you going to the Boston tea party?
