Change

There's a light on a hill That's far out in the distance And it calls out my name It calls out for a change Far away voices That want their own choices Sigh for a plea As it calls out for a change Ooh Change Ooh Change Ooh.....We can change today Repeat Chorus Deep inside our hearts There's a love You can feel It's a love that assures We can cry out for change The dark clouds that did dance To the blue skies here before me Make it plain to my eyes We can cry out for change Ooh Change Ooh Change 0oh....
