

## Everyday Sunshine

Fishbone

I wish everyday the sun would shine  
Take me to another place in my mind

Where everything is beautiful

And no wants or needs  
Nor sign of greed  
Could rule our soul

How I wish the sun would shine  
How I wish the sun would shine

If we could fly away on wings  
To a place where all could be true

And the skies were blue  
And love was true  
And me and you

How I wish the sun would shine  
How I wish the sun would shine
