It's A Wonderful Life (Gonna Have A Good Time)

Fishbone

One, two, three, go The ice was freezin' My brother almost drowned I jumped in to save him On his way, way down Then it went black and I went in Oh, what a wonderful life The angels told me he'd get his wish All my life was a twisted thing We gonna have a good life You better keep on pushin' No matter how broke you are 'Cause I'm broke down and I'm bankrupt And you're ready to end it all We gonna have a good time Rockin' now to this beat Just keep rockin' to scoop the pain Oh, my God, here comes the pain Angel made me numb The angel made me void Got thrown out of the bar Then I wrecked my car Got socked in the jaw Cussed out by my Mama Someone stole my money Screamed at by my honey Things was gettin' worse Things was gettin' worse Things was gettin' worse Things was gettin' worse We gonna have a good life Come on y'all Let's boogie some more My brains just hit the floor We gonna have a good life We gonna have a good life We gonna have a good life We gonna have a good life

It's a wonderful life

It's a great life
It's a wonderful life
It's a great life

It's so wonderful
It's fabulous
Oh, what a life
Oh, oh, oh what a life

Lord, Lord, what a life
What a life, man, it's a great, great life
Oh, I can't stand it to you, I can't stand this life
Take me away, take me, take me

Take me now, take me home
It's a wonderful life, I'm going home
Send me, to my great, great, great, great life
My wonderful, wonderful life
