Do What You Want

Fitz and the Tantrums

You know how to put me through it
Do it, do it
You love the simple humor
(Do what you want)
can prove it
I like what you're doing
So do what you want, what you want with me

I scream your name
The stars are going up in flames
You fill me up, but the water's shallow
I take the blame
Your love might be the enemy
Up on the edge
Where you go, I follow

Oh, oh, oh, oh
I like to think that I could just leave
Oh, oh, oh, oh
Then you turn around and tug on my leash

You know how to put me through it
Do it, do it
You love the simple humor
(Do what you want)
can prove it
I like what you're doing
So do what you want, what you want with me
So do what you want, what you want with me

I'll be your prisoner
I'll take the blame
I feel like leaving, but I love the pain
I keep forgiving ya
I have to change
