

# Don't Gotta Work It Out

Fitz and the Tantrums

Baby

I been wanting more  
of that love you give  
Oh it hurts to be wrong

Baby

I'm gonna need a doctor's care  
to help me through the night  
Oh look what you done

I don't know but I been told  
the world outside is so cold  
Late at night  
When you're alone  
do you think about me  
now that I'm gone  
When I'm on the road  
I often dream and think of you girl  
And I hope that you do too

We don't gotta work it out  
'Cause no one gonna tell you where to find me  
When you  
you come looking for me  
'Cause I'll be walking out the door before you know it  
and you better believe

Baby

I gonna even the score  
'Cause you've given that love  
Oh all over time

Baby

You gonna need a doctor's care  
'Cause to get you over me girl  
Look you what done

I don't know but I been told  
the world outside is so cold  
Late at night  
When you're alone  
do you think about me  
now that I'm gone  
When I'm on the road  
I often dream and think of you girl  
And I hope that you do too

We don't gotta work it out  
'Cause no one gonna tell you where to find me  
When you  
you come looking for me  
'Cause I'll be walking out the door before you know it  
and you better believe

We don't gotta work it out  
'Cause no one gonna tell you where to find me  
When you

you come looking for me  
'Cause I'll be walking out the door before you know it  
and you better believe
