

# Bulletproof

## Five Finger Death Punch

You can take the money, you can take the ride  
You can take it all but never get inside  
You can't take my honor, you can't take my soul  
You can't take the fact you'll never have control

You won't break me, no matter how hard you try  
You can't shake me down, I'm fucking bulletproof  
All Ive learned, it's like poison  
All I've known, inside my mind  
All I've seen, it's like venom  
All I know, it's all that remains

You can keep the fortune and you can have the fame  
You can have the shit you never will obtain  
But you can't take my virtue, no you can't take my pride  
You can't take the anger building up inside

You won't break me, no matter how hard you try  
You can't shake me down, I'm fucking bulletproof  
All Ive learned, it's like poison  
All I've known, inside my mind  
All I've seen, it's like venom  
All I know, it's all that remains  
(2x)

All I've learned, it's like poison  
All I've known, inside my mind  
All I've seen, it's like venom  
All I know, it's all that remains
