

# Could This Be Everything

Five Times August

You know what I'm lookin for  
You that that I can't afford  
The things I want  
For lifes uncertainties

I think your just what I need  
To get me through everything  
And theres alot  
But its all under me  
Its all under me

What do you see  
Could this be  
What do you see  
Could this be  
Everything

Well this is the long way, this is the right way  
This is the greatest time I've ever spent with you  
Well this is the long way, this is the right way

You know what I'm lookin for  
You that that I can't afford  
The things I want  
For lifes uncertainties

And I think your just what I need  
To get me through everything  
And theres alot  
But its all under me  
Its all under me

What do you see  
Could this be  
What do you see  
Could this be  
Everything

Well this is the long way, this is the right way

What do you think of  
Well could this be  
What do you think  
What do you think  
Could this be everything  
Cause everything is right here  
Everything is right here  
Everything  
Everything

Well this is the long way, this is the right way  
Well this is the long way, this is the right way  
Well this is the long way, this is the right way
