

## Full Speed Ahead

Flipper

Full speed ahead, that's what I said  
He didn't think about tomorrow  
Full speed ahead, that's all he wanted  
Another line or two would do him fine  
He had his brains all out of time  
He kinda liked it that way  
Kinda relieved it every day  
He went full speed ahead  
Full speed ahead, that's what I said  
Things became rather repetitious  
He didn't know how to handle it, he dis it  
He couldn't figure out what it was about  
He didn't stop in time or shout  
Whenever there was too much inside  
He just felt everything and died  
He didn't know what else to do  
He went full speed ahead  
He didn't know everybody he knew  
And his body said full speed ahead  
Gotta get out that vacuum cleaner  
Full speed ahead, that's what it said  
Full speed ahead, that's what it said  
That's all he wanted, that's all he knew  
And then he crashed for a million years
