

# Light in Your Eyes

Flyleaf

Pour the wine  
Light revives  
Lowering walls that divide  
Kings and Queens yearn to seek  
Love in all its mystery

When all we wanted was love,  
We got cut up and burned  
But there's a light in your eyes  
And it tells me  
That God is on our side

The waning moon  
Your sweet perfume  
Incense for the Holy Ones  
Secret hymns pour from your lips  
Healing for this broken soul

We'd drive late  
And let the music tell our fate  
For me this is heaven  
Drown our fears  
And we may age  
If we do not die today  
Until then we'll let  
This music be our prayers

When all we wanted was love,  
We got cut up and burned  
But there's a light in your eyes  
And it tells me  
That God is on our side

And all we need now is love  
We've been through enough  
We can't run just 'cause we're scared  
We've come this far  
We're not giving up  
All we need now is love  
We've been through enough  
We can't run just 'cause we're scared  
We've come this far  
We're not giving up

And all we need now is love  
We've been through enough  
We can't run just 'cause we're scared  
We've come this far  
We're not giving up  
And all we need now is love  
We've been through enough  
We can't run just 'cause we're scared  
We've come this far  
We're not giving up
