

Gold Gold Gold

Foals

Up up and away
Up up and away
Away from this town (3x)
These tunnels of bone
These tunnels of gold
They lead me

I am a rocket
I am a rocket
You are an anchor, down.

Out of my way
Out of my way
You are my heart
I am the voice inside your heart

I know your mouth
You know my wounds
These warrens are dark
These warrens are long
These warrens go on and on and on and on

And so we go on
And so we go on
Up up and away
Up up and away
Away from this town (3x)

I am a rocket
I am a rocket
You are an anchor
You are an anchor, down (3x)

And had we arrived
And if we had arrived
Then we would have
That there was no Home (3x)
To go to

And so we sit here
In the heat of the sun
The heat of the sun (5x)
And so we sit here
The heat of the sun (2x)
We opened our skulls
All out to the sky (8x)
Let the light fall (6x)
Let the light light fall
