

# In Degrees

Foals

We're caught up in silence  
I lose you in degrees  
I see you through the glass door

I've looked up and down now  
I lose you in degrees  
Come back around my way again  
See me if you please

I'm tongue tied in silence  
My words lost on the breeze  
Caught up in your orbit still  
Release me if you please

I lose you in degrees  
Don't leave me on my knees (x4)

I saw the black rain pouring  
A lost love on display  
Bit by bit and day by day  
I know we've lost our way

I hear your final footsteps  
I've lost you by degrees  
Pressed up to the glass door  
I couldn't watch you leave

I lose you in degrees  
Don't leave me on my knees (x4)

Around again  
I waste my days  
Around again  
I waste my time

Oh, I know I've wasted time  
When I've tried to please, yeah  
How did I end up here  
Where I've come to be, yeah

Oh, I feel I've wasted time  
When I've tried to please, yeah  
Release me when I waste my time  
Where I come to be here

Am I wasting my time?  
I could not persevere

No point wasting my time  
I could not persevere
