

# Hands So Red On A Face So Pale

For All Those Sleeping

So slow the snow it falls tonight  
we are not innocent  
i watch as beauty comes to life  
be still embrace the moment  
when all i see has turned to white  
we are not innocent  
time takes its time with us tonight  
just breathe

bleed, like you mean it now  
the tracks lead me to where you lay  
in absence of light  
tainted snow shines in the night  
your bloodshed silhouette looks (you look lovely)  
standing in your place i feel nothing

can i feel your touch tonight, cold as ice  
come on baby, get your broken heart beatin'  
come on baby get your broken heart beatin'

and over the horizon is where your last words echoed  
so i ask you to say it again say it again say it

can you hold me close tonight im cold as ice  
come on baby get your broken heart beatin'  
come on baby get your broken heart beatin'  
and i dont want to say goodbye tonight  
come on baby get your empty lungs breathing  
come on baby get your empty lungs

and over the horizon is where you gave your last breath  
so i ask you to breathe again breathe  
..take a deep breath honey

dont let this be our last goodbye

dont let this be our last  
your the silence that ill hear forever
