

# Money

Foxes

I can't compete with her eyes  
I don't come close, to the power she holds over you  
And when she lights up, gives you something to touch  
I know that it's all

Money, money, money can't love you  
Money can't hold you  
Money can't love you back  
Money, money, money can't love you  
Money can't hold you  
Money can't love you  
Money can't love you back  
Money can't love you back  
Money can't love you back  
Money can't love you

You've got your gold, but when it all falls down  
It's just you and your crown  
She's got you good, got you spending your time  
Dancin' round all the sides

Money, money, money can't love you  
Money can't hold you  
Money can't love you back  
Money, money, money can't love you  
Money can't hold you  
Money can't love you  
Money can't love you back  
Money can't love you back  
Money can't love you back  
Money can't love you

When your gold is gone  
I hope you'll find your way back home, you know this  
When your gold is gone  
I hope you'll find your way back home, you know this  
When your gold is gone, find your way back home  
When your gold is gone, find your way back home

Money, money, money can't love you  
Money can't hold you  
Money can't love you back  
Money, money money can't love you  
Money can't hold you  
Money can't love you  
Money can't love you back

(When your gold is gone, find your way back home)  
Money can't love you back  
(When your gold is gone, find your way back home)  
Money can't love you back  
(When your gold is gone, find your way back home)  
When your gold is gone, find your way back home  
When your gold is gone, find your way back home
