

The Science Of Love

Foxy Shazam

I feel the pressure and it's building up
Closing top and to the boiling point
You're the one, you'll be the one in due time
Gotta make my money, see
Gotta make my money money
You got your eyes on the red hot woman tonight
You gotta let it go, you gotta lend me some love
You break it off, babe
I'll let you know
You cast it out and then you reel it in
You hear me knocking, babe let me on into your heart
My mom is white and my dad is black
My rusty heart is set to attack on you
You're the one, you're the one in due time
You really got me, you really do
You really, need me, like I need you
You really move me, you move me move me
You move me move me move me move me move me yea
You ever love so much your body it aches?
You ever call just to hear me and then just hang up?
You ever catch a glimpse from time to time?
You gotta understand the science of L O V E
