

# Memory

Fragma

That look on your face  
You're breathing at night  
I'm counting the days  
and the tears that I cry

You said that you love me  
Every word is a lie  
I wanted you near me  
And now it's goodbye

I'm feeling so deep  
I'm feeling so wrong  
You better believe me  
That love's made me strong

The way you deceived me  
I've gotta move on  
Now that you're gone  
It's only...

Memory, memory, memory  
It's all over the top now  
Memory, memory, memory  
And I need it to stop now

It's only...  
Memory, memory, memory  
It's all over the top now  
Memory, memory, memory  
And I need it to stop now

Oh yeah

A moment together  
Is an hour alone  
A change of direct  
Means that I'm at fault

One second of hope  
Is a week of regret  
The curse of the mind  
Is that it never forgets

I'm feeling so deep  
I'm feeling so wrong  
You better believe me  
That love's made me strong

The way you deceived me  
I've gotta move on  
Now that you're gone  
It's only...

Memory, memory, memory  
It's all over the top now  
Memory, memory, memory  
And I need it to stop now
