

# The Crows Are Coming for Us

From First to Last

How does it feel  
To be ashamed  
Of who you love  
Well I know

You and me ought to hurry  
Heaven in the glitter is for real  
Real, real

Always knew  
What you were  
Always knew

You walk on water  
You sing a lovely tune  
You walk on water  
You sing a lovely tune  
You walk on water  
You sing a lovely tune  
You walk on water  
You sing, sing

Always knew  
What you were  
Always knew

The crows are coming for us  
Let them live, let them live  
The crows are coming for us  
Let them live, let them live  
The crows are coming for us  
Let them live, let them live  
The crows are coming for us  
Let them live, let them live  
The crows are coming for us  
Let them live, let them live

The crows are hungry for us  
Let them live, let them live  
The crows are hungry for us  
Let them live, let them live  
The crows are hungry for us  
Let them live, let them live  
The crows are hungry for us  
Let them live, let them live  
The crows are hungry for us  
Let them live, let them live

Always knew  
What you were  
Always knew  
What you were  
(The crows are coming for us)  
Always knew  
(The crows are hungry for us)  
What you were  
(The crows are coming for us)
