

# California Crossing

Fu Manchu

Twenty years or more  
We had a plan  
To build the finest street ride  
In the whole damn land

Some dip down for keys  
Some cheetah slicks  
Leather bars and the holly  
Just for kicks

Happenin' since the dawn of time  
Big block will shut you down, off the line  
In California, there is no stopping  
In California, the California crossing

We didn't know  
Couldn't foresee  
Cold blooded snake  
Building up heat

Tries to fly but it's no use  
Cobra's got the bird and it's loose  
In California, there is no stopping  
In California, the California crossing

In between runs  
Through oil and smoke  
Thought to myself  
Did we ever choke?

Happenin' since  
The dawn of time  
Big block will shut you down  
Off the line

Tries to fly but it's no use, it's no use  
There is no stopping  
California, the California crossing  
In California, there is no stopping  
In California, the California crossing
