

Grendel Snowman

Fu Manchu

Casts his shadow miles across the sun
Keepin' them in sight when they run
All of a sudden we hear the 4 send
Trackin' 50 feet above my head
Like we seen it so, there it goes
Like we seen it so, there it goes
Beam in grip, for years
Never found, we here
Taking giant strides upright
No remains, they die
Like we seen it so, there it goes
Like we seen it so, there it goes
Un, iden, ti, fied
Un, iden, ti, fied
Un, iden, ti, fied
