

# Hell On Wheels

Fu Manchu

Cut yourself off from the pack  
Flat out against the freaks  
There's nothin' they won't try  
Hot head - heavy foot they meet  
It's been so many days  
And we tried every way  
We knew of a masterplan  
So put the keys in my hand

In my hand  
At a time when you would think  
All of a sudden it hits the streets  
As they're swappin' the big block  
Slow-motion - time has stopped  
El camaro never dies  
Look closely you'll know why  
Outrun 'em you know we can  
So put the keys in my hand in my hand

Hell on wheels is no big deal  
Road burnin' all across the land  
Hell on wheels is no big deal

Takin' 'em out of the masterplan  
An idea whose time has come  
A land ride for everyone  
Been like this for years on end  
We'll let you know where and when  
As he splits the road in two  
Underdrive we never knew  
Ourun 'em you know we can  
So put the keys in my hand

In my hand  
In my hand
