

Strato-Streak

Fu Manchu

Sedate it ain't acid forging the road
I'm chasin' worlds a million miles to go
Someone done ya evil-know

A so long
A so long
A so long

Straight ride from the face on moon
I know what this means.. but how 'bout you?
From a passin' said they'll be there soon *yea (scott adds "yea
" in the live show)

A so long
A so long
A so long

Ten miles of fucked-up road
Solar burnin' things have turned to stone
Ready for the next time they show
