

The Falcon Has Landed

Fu Manchu

Well I dropped twenty-five
And I lost mine
Countin' down or head straight to the sky
I seen-side
There in no time
Soarin'-high
A star shoutin' nine
The falcon has landed...it's shinin' and sanded
The falcon, it's grounded...that right where...I found it.
The first of its kind
In our space and time
Waitin' out side
The second ride
I see inside
There in no time
Soarin'-high
A star shoutin' nine
The falcon has landed..it's shinin' and sanded
The falcon, it's grounded...that right where..I found it
On a hell bent journey to the center of the earth (the earth th
e earth the earth)
Twin can freaks, payin' what it's worth (its worth its worth it
s worth)
Haulin' and crawlin, changers on it's way (its way its way its
way)
Mars attack risin', now it's too late (too late too late too la
te)
Well I dropped twenty-five
And I lost mine
Countin' down-headin' straight to the sky
I seen inside
There in no time
Soarin'-high
A star shoutin' nine
