

Walken's Syndrome

Fugazi

Fragile stem
Asleep at the stoplight again
Red dressed in red drenched in red spreading red ever red

Fragile stem
Veering for control again
Change lanes explain how strain defers the impact of speed
On on past gone gone gone past on

Fragile stem
Made your own road again
Scars crash and glass made
You laugh you'd show it off to your friends

Fragile stem
Lay down your arms and then
Steer into the headlights like the dead light of the last sun y
ou'll see
Steering into headlights and your gone
