

## Into Oblivion

### Funeral for a Friend

The days I've felt alone.  
And the sea, it brings me back again.  
So that I can see my wife.  
And I can see my child.  
Home, I'm home, it never changes,  
Same old faces, same old places.

I stared into oblivion and found my home.  
I stared into oblivion, into oblivion.

Find in me the home  
That you have never known.  
Find in us the faith.  
The faith to bring you home.

I stared into oblivion and found my home.  
I stared into oblivion and found my home.  
I stared into oblivion, and found my own reflection there.  
(Reflection there)

Home. Now that I'm coming home,  
Will you be the same as when I saw you last?  
Tell me how much time has passed?  
Tell me how much time has passed?  
Tell me how much time has passed?

I stared into oblivion (and found my home).  
I stared into oblivion (and found my home).  
I stared into oblivion (and found my home).  
I stared into oblivion and found my own reflection there.
