

Chin Music

Future of the Left

i know it only happened cos i couldnt stop drinking
it only happened cos i couldn't drink more
he took a picture of the ugly scene
and made stupid threats, yeah, you know what i mean

i only hit him cos he made me crazy
i only hit him cos he made me mad
she only hit him cos it gets her wet, yeah
she's one of a kind she's got chin music

the boy wears it well
you never can...

i knew i couldn't stop it so i didn't die trying
i couldn't stop it so i didn't think twice
he wasn't heading for a glittering life
he's just a one-town man with a one-man wife

i only hit him cos he made me crazy
i only hit him cos he made me mad
she only hit him cos it gets her wet, yeah
she's one of a kind she's got chin music

the boy wears it well
you never can...

our final test
what passes now it stays between us
the scrubbers and the buggers have it right
stand up and raise your heads
for the chin music

the boy wears it well
you never can
