

# Don't Look Back

Gabriella Cilmi

One more time  
Maybe we could make it one more night  
Cause I can't see light  
When your shadow's always by my side  
All those lies,  
I've tried to read between your lines  
But they all get burned  
When I'm hanging on you every word

So do we say goodbye  
Or leave it all behind  
Or give it one more try maybe one more time

Have the curtains closed?  
Have we lost control?  
I guess it's getting old and we should let it go

So we don't look back  
The clocks are going forward and we can't change that  
So we don't look back  
We've had our piece of heaven and we can't go back

When ice breaks through  
I know its gonna hurt to be close to you  
But I'll take the fall  
Even though I know my heart wants more

So do we say goodbye  
Or leave it all behind  
Or give it one more try maybe one more time

Have the curtains closed?  
Have we lost control?  
I guess it getting old and we should let it go

So we don't look back  
The clocks are going forward and we can't change that  
So we don't look back  
We've had our piece of heaven and we can't go back
